EDUCATION

B.Sc. in Computer Science & Engineering

- Daffodil International University (DIU)
- CGPA: 3.64 / 4.00 (Up to 8th Semester)
- Jun 2023 – Present

Higher Secondary Certificate (HSC)

- Shahjadpur Government College
- GPA: 4.75 / 5.00 | 2020 – 2022

Secondary School Certificate (SSC)

- Puthia High School
- GPA: 5.00 / 5.00 | 2020

SKILLS

Technical Skills

- Programming Languages:** C, Java, Python, JavaScript
- Frontend Development:** HTML5, CSS3, Tailwind CSS, React.js
- Database Management:** MySQL, SQLite
- Version Control:** Git, GitHub
- Tools & Software:** VS Code, PyCharm, Eclipse, MS Office, Linux, Google Workspace

Soft Skills

- Problem Solving, Teamwork, Adaptability, Communication, Leadership, Time Management

INTERESTS & HOBBIES

Software Development, Web Development, Machine Learning, Open-Source

LANGUAGES

- Bangla — Native
- English — Professional Working Proficiency

PROFILE SUMMARY

Computer Science and Engineering student with hands-on experience in React.js, Tailwind CSS, JavaScript, Python, and MySQL. Skilled in developing responsive web applications, CRUD-based systems, and Linux shell scripting projects. Passionate about software development, problem-solving, and machine learning, and seeking an internship or entry-level Software Engineer or Frontend Developer role to contribute and grow professionally.

ACADEMIC PROJECTS

GitHub Workspace | *React.js, GitHub REST API*

- Built a GitHub client application to search users and explore repositories using the GitHub REST API.
- Implemented authentication, favorites, collections, notifications, and responsive UI with React Context API and Local Storage.

Personal Portfolio Website | *React.js, Tailwind CSS*

- Developed a responsive personal portfolio to showcase projects, skills, and achievements.
- Deployed the website on Vercel for fast and reliable hosting.

Student Management System | *Python (Flask), MySQL*

- Developed a web-based student management system with CRUD functionality.
- Integrated MySQL for secure and efficient data management.

Parking Management System | *Python, SQLite*

- Developed a parking management system to manage vehicle entry, exit, and parking records.
- Integrated SQLite for efficient data storage and parking record management.

Process Management & Auto-Kill System | *Linux, Shell Scripting*

- Developed a shell scripting tool to monitor CPU and memory usage in real time.
- Implemented auto-kill, logging, and whitelist features to improve system stability and reliability.

CERTIFICATIONS

- SPA Development with React.js – EDGE Training Program
- Public Key Infrastructure (PKI) Training – CCA
- National Skill Standard Basic (360 Hours) – BTEB
- Python Programming – Uniatena
- Introduction to Git and GitHub – Coursera
